Computer Laboratory - lab sheet 1

Task 1
Copy the program given below. Save (as `hello.cpp`), compile and run it.

```cpp
// First C++ program
#include <iostream>
using namespace std;

int main()
{
  cout << "Hello World!";
  return 0;
}
```

Task 2
(a) Write a C++ program named `hesap.cpp` that reads two integers and outputs their sum.
(b) Modify the program such that it outputs the subtraction, multiplication and division as well.

Task 3
(a) Write a program named `triangle.cpp` to input the base b and height h of a right-angle triangle, and output its area.
(b) Write program named `circle.cpp` to input the radius r of a circle and output the perimeter of the circle.
